## New from Carley!

Carley is proud to announce the all new **CL2030 photometer lamp** assembly for use in Olympus **AU400, AU600** and **AU640** chemistry analyzers.

The CL2030 lamp assembly is equivalent to the MU988800 and was designed with both the OEM and end user in mind and in direct collaboration with technicians and end users like you who demand both performance and savings.

Designed after the OEM lamp, the CL2030 provides the same range and quality of light output using high quality quartz and the same proven stamped stainless steel base for mounting in the analyzer.

The Carley CL2030 Analyzer lamp offers OEM performance, long life, and considerable savings. See the difference and order today!
